

GLUE TO THE INSIDE
OF THE MACHINE

GLUE TO THE INSIDE
OF THE MACHINE

- Instructions:**
1. Cut out the shape of the Dream Machine by following the solid stroke.
 2. Cut out the holes inside the Dream Machine by following the dashed strokes.
 3. Fold the Dream Machine in half and overlap the glue tabs. Position the glue tabs on the inside surfaces of the Dream Machine and glue in place.
 4. Place the Dream Machine on a 78 RPM turntable.
 5. Suspend a light bulb 1/3 - 1/2 down the inside of the Dream Machine. The lightbulb should be positioned 6 inches from the front of the Dream Machine, close your eyes, and wait for the visions to come!
 6. Sit in front of the Dream Machine.

WARNING: This experience may be hazardous to people with epilepsy or other nervous disorders
